"Time And Again"

Baby, I realise it was you
You always want everything right
Summer days and winter nights
Lonely, I open my eyes and your smile greets me
And whisper words to tell me it's alright
I'll stay by you in your darkest nights

Tine and again the situation shows
You make it better
Time and again I realize you are
The morning of my day
Time and again my feeling let me know
You make it better

Wasted words on conversation
All I want to do is talk
About my love, woman I love
I never, I could be this way
When I hold you in my arms
I know that's where I want to stay

This is the place I should be
Spreading the harmony my love
You and I all this talk
And the words seem to fade
I don't ever, ever have to world (?)
I'm always the fool in the end

Tine and again the situation shows
You make it better
Time and again I realize you are
The morning of my day
Time and again my feeling let me know
You make it better

Wasted words a necessary separation
