In the shadows of a dark night
You need a woman by your side
She'll help you make it in the cold light
And give you all sun is fine

If you want someone lovin'
Drive you out of your mind
Give you a little sweetness and sugar
Just make sure she understands

White skin women keep me howlin' for more
Brown skin honey oh no

Got a whitesnake mama
You want to shake it mama
You're a whitesnake mama
Don't you let it crawl on you

You want to find a little angel
Sweet surrender in her eyes
Broke a heart in the morning
To the moon is on the rise

Night time is the night time
For rolling on the silent gloves
Daytime, nighttime, anytime
Is the right time
Spin it around
And make some more

Got a whitesnake mama
You want to shake it mama
You're a whitesnake mama
Don't you let it crawl on you

(Break)

Back door man ain't done nothing
But creep around the door
When you this man creeping
You hear the scrap when he comes

Night time is the right time
For rolling on the silent gloves
Night time is the right time
So make sure you're the only one

Got a whitesnake mama
You want to shake it mama
You're a whitesnake mama
Don't you let it crawl on you

Got a whitesnake mama
You want to shake it mama
You're a whitesnake mama
Don't you let it crawl on you

You're a whitesnake mama...
