"The Rainforest"

Visit "[The Rainforest](#)" on MotoLyrics.com

The rainforest is a beautiful place where animal's live
The rainforest is where people live such as tribes and natives.

Ohh, it gives us air to breathe
Ohh, the animals call it home
Ohh, it medicines help you and me
Ohh, help us save it before it's gone
They burnt and cut it down to a farm
But we all know it's doing harm
To the animaal's, there's no place to go.
Monkey's rush from tree to tree
Calling out for their family
There is no where to go.
Here's what she should do
Tell everbody that it's not okay
To let the forest just burn away
Got to say it loud and got to say it proud
Ohh, it gives us air to breathe
Ohh, the animals call it home
Ohh, it medicines help you and me
Ohh, help us save it before it's gone
They burnt and cut it down to a farm
But we all know it's doing harm
To the animaal's, there's no place to go.
Monkey's rush from tree to tree
Calling out for their family
There is no where to go.
There is no where to go.
