It was always loud while it was snowing  
i didnt know, just where i was going  
and they shut down all the buildings,  
and the machines, they had to go home.

did you come out here for something  
or did you come out here for nothing  
my radio, it is laughing for nothing  
my radio, it is laughing for nothing.

it was always cold with the sun gone,  
we met god, but he was no fun.  
so he shut down all the buildings  
and the machines they all went home

did we come out here for something  
or did we come out here for nothing  
my radio, it is laughing for nothing  
my radio, it is laughing for nothing
