In our town
there are no roads
no land
to call our own

but i will sing
sing sing a song
through the radio wires
and into my bones!

oh!

they're cold,
but dont they know
there is ice
and there is snow

but i will sing
sing sing is song
all through the radiowires
and into my bones.

ice covers towns
and ice covers roads
what will they sing
nobody knows but
i aint scared
i aint scared no

out of their schools
and out of their homes
where will we go!
nobody knows but
i aint scared
i aint scared
