I've got faith in us
Like winter turning to the Spring
Your love's enough
to be my everything
When the times get rough
I think of all the joy you bring
into my life
'My soul is tingling
When I think of what we've got
Oh babe we've got a lot
of love
deep inside
We've got a lot of love
and baby thats why
I've got faith in us
Like fire quenched by silent rain
The spot stays warm
where last night we lay
When you look at me
your opal eyes like back clouds storm
intensity
and I feel reborn
Chorus
I've got Faith in us
I've got faith in us
Yes I do
