Ladies and Gentleman Ricky D

Well once upon a time
eccentric head surely
When people wore pyjamas and went to bed early
There was a little boy tight clout and mic spout
Tried to help lead black folk the right rout
Too late
Negative voices many unsung
In prison for unwise choices that he once made
He might a been
Cops would see inside him
And seeing the good he had within him
Let him out again
No longer big type brawler fall again
Big willies like Will Smith now call again (yo Rick, yo Rick)
So check the gift
Everything ??

What happen when you stir black folk away from
negative
Not to mention check the charts killing em
There will be a mark behind the biz mark will and rick
???

Can't mess with the mind state

"You took your love away from me" ah ha ha ha ha ho
"You took your love away from me" ah ha ha ha ha ho
"You took your love"
"You took your love"
"You took your love"
