You never cared.....

My song for you
Has never made you feel
The way I wanted it to
I see you spill
My blood all on the floor
I won't ask you for any more

I don't want this love to feel
One mile wide or one inch deep
This climb to perfection is getting steep
Please say you'll never give up on me

And I say it all the time
The way I feel
It's the only thing I know
Don't let it go
Just let it show
I won't ask you for any more

So I'll say this one last time
Before I end my life
You'll be sorry when I'm gone
But my memory will linger on
And when you hear my name
You can say you killed me
But not with force
It's with the tone
Of your voice....

You never cared.....
