Come closer darling
My hands can't reach your throat from here
I'm sorry for what I'm about to do to you

The world would be much better
If you would just stop breathing
Stop taking in the air
I'm sick of always hearing "I don't care"

And I'll always remember
The way that your lips taste
You said that kissing me was
Your biggest mistake
You said you don't know how you feel
You just want to be friends
But when you decide you love me
I won't feel the same the way again

Runaway darling
I can't go on living this way
I'm sorry for what I'm about to do to us

The world would be much better
If I could just stop breathing
Stop taking in the air
I'm sick of always hearing you don't care
