Take my hand
I'll lead you down the hall
And with one last glance
Only one will walk back alone
One gun one shell
Your making things harder than they have to be...

Close your eyes
This wont take long I promise you
Close the blinds
Lock the door

And I can see the fear in your eyes
Lips quiver as you say goodnight
If I can't have you than
I'll make sure no one can

This place seems so familiar
Feels like I've been here before
The smell of cigarettes still lingers in the air
The blood from your body
Stains my hands red
Why do I always want what I can't have?

(Close your eyes
Now....
Close your eyes
All night long
We'll walk in the dark
This place seems so familiar
Feels like I've been here before
In your eyes....
Goodbye
Say goodnight
Say goodnight
Close your eyes
Close your eyes...)
