The siren sings a lonely song - of all the wants and
hungers
[of all the wants and hungers]
The lust of love a brute desire - the ledge of life goes
under
[the ledge of life goes under]
Divide the dream into the flesh - kaleidoscope and
candle eyes
[kaleidoscope and candle eyes]
Empty winds scrape on the soul - but never stop to
realize
[but never stop to realize]

Animal whisperings - intoxicate the night
[intoxicate the night]
Hypnotize the deperate - slow motion light
[slow motion light]
Wash away into the rain - blood, milk and sky
[blood, milk and sky]
Hollow moons illuminate - and beauty never dies
[and beauty never dies]

Running wild, running blind
[running wild, running blind]
I breathe the body deep
[i breathe the body deep]
1,000 years beside myself
[1,000 years beside myself]
I do not sleep
[i do not sleep]
Seduce the world it never screams
[seduce the world it never screams]
Dead water lies
[dead water lies]
Ride the only one who knows
[ride the only one who knows]
Beauty never dies
[beauty never dies, never dies, never dies, never dies,
never dies, never dies, never dies, never dies,]
