I masturbate
I masturbate
I masturbate

September in the rain
Her sweat come a frozen onto my skin
Eliminate the outer space and come and get
I'm swing'n down it again
Synchronize me, fall away
Well I believe that I wicked on the way
Look alive now

Yeah, stars explode my eyes
Well I been down a long time
Days crawl away and die
Forever is a long time

Remember howling crazy
Like at the moonlight superfly
A penetrating powerman oh baby
I'm painted in the sky
Iron fister on the hour
Paralyzing demon flower

Yeah, stars explode my eyes
Well I been down a long time
Days crawl away and die
Forever is a long time

Surround the pain the love's insane
Got a pseudo-systematic
Gain careening through the neon side
A horizontal mind collide
Harum scarum holiday double
Deal'n on the ones who say
Collapse me with a powerblast
Ground to zero roll'n fast

Ride the glide treasure slide
Got a wooden symbol soul inside
Freeze the heart, a razor tear pack
She doesn't care

If the pillow Jacob's sky
Snatch the pad, I don't deny
Been a long time, been a long time

Step into the wind and watch
A red girl come alive
Scream'n to the world
I diggin' on the fact
That you will not survive
Radiate me walk away
You shook the devil's dig deep hand today

Yeah, stars explode my eyes
Well I been down a long time
Days crawl away and die
Forever is a long time

Million miles an hour
Million miles an hour
Million miles an hour
Let's get inside
