I found this girl, same age as me
Something 'bout her seemed so sweet
Thought one day we could both meet
And not just chat about what's on TV

Met her brother, when he were cowboy
Met two others before a trouble

Those dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohh

After the suicide, my girl's brother and I
Tried to stay dry from those dark clouds

Those dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohh

Those dark clouds seem to follow us all
Drown my girl and I started to fall
And I don't know, ohh

Mum thinks that I've been doin' my homework
Dad don't know I, I haven't left the house all day

We both know that the brother had to go
[Incomprehensible]
So we both know, ohh
