"Hydrant"

An open road
An easy ride right out of town
I've got to go
The same old crowd and streets just bring me down
Change is hard but not as hard as staying here
Just one more night

Fuck that! Fuck you!
You push me too hard yeah you really do
Fuck that! Fuck you!
You push me too hard and you know it's true

Nothing about you makes me wanna stay
Something about you that I really hate
I don't need you like you need me
All I wanna say is

Run away
Looks as though I've given up again
Try to stay
One more shot at watching all the bands I hate
Change is hard not as hard as staying here
Just one more night
