I know they all want you  
With your Desdemona's eyes  
I'll keep you from danger  
And shield you from prying eyes

I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Nothing bad'll happen now

I've got a problem  
I think, you know how I feel  
Plans piling up in the corner  
Eyeballing me every hour

I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Nothing bad'll happen now

Got a balcony and an orange tree  
You can save up, and visit New York with me  
You can save up, and visit New York with me

I can make the world safe for you  
Nothing bad at all

You've got no money  
So I know how you feel  
When you see the glitter  
Turn around, it's no big deal

I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Nothing bad at all

I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Come and live over here

I can make the world safe for you  
Come and live over here  
I can make the world safe for you  
Come and live over here
