Ah, ah, ah

Things just aren't the way that they used to be
Back in the day when a man meant security
After working hard all week
You can kick back and throw up your feet
Well, I ???
Sayin' my beloved is sweet

But he's worth it (Yeah), he deserves it (Uh-huh)
May not be perfect, he's all the man I need
He's ready and willing, gives me the feeling (Uh)
And whenever we're together I know where I belong

It's just the way he looks into your eyes (Love that Man)
It's the love he gives that makes you fantasize (Love That man)
It's the time it takes to show you that he cares
And he's always there (He's always, always there)
Don't you love that man

I know things ain't the way they used to be
When a woman and a man work hard to be
Happy in love and stay together, woo
{Let's stay that way forever} Ah, ah

If you can't do a fight, just try and work it out
Never give up on him, that's not what love's about
Stay true to your feelings
And remember all things he's done for you

It's just the way he looks into your eyes (Love that Man)
It's the love he gives (Ooh) that makes you fantasize (Love that man)
It's the time it takes to show you that he cares
And he's always there (He's always, always there)
Don't you love that man

It's just the way he looks into your eyes (Love that

Man)
It's the love he gives (Ooh) that makes you fantasize
(Love that man)
It's the time it takes to show you that he cares (I
Do)
And he's always there (He's always, always there)
Don't you love that man

And you know I'm talkin' 'bout that old school love
That everlasting feeling can never be too much
Somebody loves you heart and soul
{Hold on} Hold on, {Don't stop} don't stop and never
Let him go

It's just the way he looks into your eyes (Love that
Man)
It's the love he gives (Oh, ooh,) that makes you
Fantasize (That man I do)
It's the time it takes to show you that he cares (Hey)
And he's always there (Always, always there)
Don't you love that man

It's just the way he looks into your eyes (Well, I do,
Well, I do, ooh)
It's the love he gives that makes you fantasize (I
Love that man)
It's the time it takes to show you that he cares
And he's always there (He's always there)
Don't you love that man (I love that man)

It's just the way he looks into your eyes (He looks
Into my eyes, I love that man)
It's the love he gives that makes you fantasize (I
Love that man)
It's the time it takes to show you that he cares (I
Do)
And he's always there (Whenever we're together)
Don't you love that man
