Each time I pray
I search for words that say all that I'm going through

Here's what to say each time you pray
I give it all to you
How can I know what's real

Oh trust in yourself believe in what you feel

I don't understand what's the Master plan
will it ever come together?
Yes love will find the way
Open up your heart
Give the greater part

And it will
Yes it will
Oh Yes it will
Love will find a way

Its all a part of youth
searching for the truth
seeing the way roads will lead you

Now I realize though problems may arise
There's someone I can come to

Time waits for no man
Don't give up
It's time to take a stand

I don't understand what's the Master plan
Will it ever come together?
Yes love will find the way
Open up your heart
Give the greater part
And it will
Yes it will

Love will find the way

In the middle of the night
Love will lead you to the light
You can win {Oh yes you can}
Just hold on
Don't give up the fight {Don't give up the fight}
love will make things right

You can win
You can win
You can win
You can win
You can win

Now I understand {I know that}
Love will find the way

Open up your heart
Give the greater part
And it will come together
Love will find a way
Now I understand
This is the master plan

Yes it is
Yes it is

Love will find a way

I do believe
I do I do I do I do

Now you know love will find a way
Love will find a way

I know it will
Just believe it
I do believe it

Love will find a way
