Sometimes life can make you crazy
It can really put a body to the test
You try so hard to make sure everything is right
And you find you've only wound up with a mess

It's a common situation
Even though you feel abandoned and alone
Child, you ain't the first to experience a hurt so
Don't panic when you bit the danger zone

What you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part
When you battles wear you down ...
Here's my advice

Chorus:

When you're feeling down and out
And you're got troubles on your mind
Love will save the day
When you're feeling full of doubt
And fear has got you in a bind
Love will save the day

When your world's falling apart
All you got to do is say a prayer
And love will save the day
There's answer in your heart
So let your light shines, my dear
And love will save the day
Love will save the day
Love will save the day
Love will save the day
Love will save the day
Love will save the day

Many things in this world bring you down
It's a wonder you can make it thru the day
Well you can't sleep cause your problems are too deep
And there's always something getting the way

And when you turn on the evening news
Mass confusion is the only thing you'll see
Well there's no question
That we need a new direction cause
We all could use some peace and harmony

What you need's a little change of heart
Forget this fear and frustration
Love will always play the greater part
When your battles wear you down ...
Here's my advice

(Chorus)
