"You're Still My Man"

Visit "[You're Still My Man](#)" on MotoLyrics.com

On the day that you left me
You said you had no regrets
There's a bond between us
That hasn't broken yet
And the feelings that we have together
Will never disappear
How can you be far away
When your spirit's here?
Refrain:
You're still my man
Nothing can change it
We still belong together
You're still my man
Nothing can change it
Our love will last forever
And the seasons of our love
Will never change, I know
Maybe that's the reason
You felt you had to go
But soon you'll be missing me
Darling, I know you well
There's a bond we share together
And nothing can break that spell
(Refrain)
I'll wait for you
The thought that keeps me going each day
That I believe you still love me
I love you more than words can say
(Refrain)
(Repeat and fade)
