From the L, the O
The V to the E
With the guys
Are free
Love see
The L, the O and the V, the E
Love, love, love

The words love and life both have four letters
But there's two, different things all together
'Cuz I've liked many ladies in my day
But just like the wind, they've all blown away

You see, to love someone is atmosphere
But to both they'll share, when ones not there
There's no one way, it can be explained
I guess it's the way I smile, when I hear your name

It's the little things that you do, that mean so much
It's the care that you put, into every touch
It's the way I trust you, and you trust me
I guess some of us, are so lucky

I was known for having, the upper hand
I was known as a stone cold ladies man
If it wasn't for you, I'd be that way still
But lately there's a change, in Jalil

Thought my friends play games and teach me a lot
I know I'm more than happy, wit what I got
When I get up in the morning, and go to work
See all day long, I stay alert

'Til we come home at night and close your door
Two people sharing, one common cause
When I say one love, you can trust me
'Cuz never have I been so lucky

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love

Now the love I use to have just left me cold
I use to buy everything from diamonds to gold
For I thought she'd left me, 'cuz I didn't buy her enough
But then she left me alone with all of my stuff

Said, maybe one of these days you'll have to learn
That love is something, that you gotta earn
And once you earn it, you gotta know how to keep it
You got to want it, as well as you need it

To have lost love, was a hurtin' lesson
But to have had love, was a definite blessin'
Now I know what the Beatles were thinkin' of
When they said, 'That money can't buy me love'

When you say lost love, what do you mean?
I just went through, the exact same thing
Mind was lost for a whole different reason
I lost my love becuz of cheatin'

Started roamin' through the streets all day and night
I guess greedy best describes such an appetite
I wish I had a bat, but if you means a wish
Guess a bird in the hand beats two in the bush

I like to thank you, girl for teaching me love
Becuz all and all, I had a ball
I guess it's better to have loved and to have lost
Then to never have loved at all

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love

Now, I think it's 'bout time, that we break it down
This is all about the love that we lost and found
About the love that we missed and the love we shared
About the love that just up'd and disappeared
About who was for real and who was fake
So you can learn from our mistakes

'Cuz see it was already written, done and said
So you can stay, two steps ahead
Of the L, for the love which you give
The O, is for the love who we live
And the V, is for the vibrant letter
The E means may we last forever and ever

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one

One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one love

One love, one love
You're lucky just to have just one
One love, one love
You're lucky just to have just one love
One love, one love
You're lucky just to have just one
