I didn't plan to feel
I've been numb so long I forgotten what was real
It's been forever since I've looked me in the face
I bet that's why this comfort feels so out of place
My heads been beggin' me to turn the other way
'Cause my heart sayin' go, and my heart says stay

Chorus:

We rise, in spite of our fears inside Caused by those
who burn us down with their lies
(Who burn us down with their lies)
Together we will rise
To a love that soars me on top
A connection so electric and high
From our ashes we'll rise

When we're together it's like I'm holding myself
Merging so perfectly, could you be anyone else?
Yeah
And if its true, if you're a reflection of me
When I look at myself you turn Me into We

Chorus:

We rise, in spite of our fears inside Caused by those
who burn us down with their lies
(Those who burn us down with their lies)
Together we will rise
To a love that soars me on top
(To a love that soars me on top)
A connection so electric and high
From our ashes we'll rise

Bridge:

Only time knows, our fall together, fall together we will
fly
No lables, some things are just too sacred to transcribe
I know your being here has made me feel so alive
If our tomorrows end today may we forever be inspired
Ohhhhh we rise, we rise, we rise

Chorus:(Til end)

We rise, in spite of our fears inside
Caused by those
who burn us down with their lies
Together we will rise
To a love that soars me on top
A connection so electric and high
From our ashes we'll rise
From our ashes we'll rise
From our ashes we'll rise
From our ashes we'll rise
