She's been known to wander off into imaginary places
She's been known to roam
She's been known to wander off into this darker stretch
They don't like to see
She likes to move it
She likes to groove it
It feels good inside
Now one time there was this little bitty incident, yes
They don't like to talk about
Suppression, repression, in her mind the hatred's there
But she don't know what it's about
She likes to move it
She likes to groove it
It feels good inside
Oh, she's been saved
She's been saved for me
Oh, she's been saved
And now I'm gonna set her free
Oh, she's been saved
I'm gonna set her free
So she can believe
She likes to move it
She likes to groove it
It feels good inside
She's been known to wander off into imaginary places
She's been known to roam
She's been known to go off into this darker stretch, yes
They don't like to see
She likes to move it
She likes to groove it
It feels good inside
She likes to move it
She likes to groove it
