Mama tried to saved me
But she went down too
Mamma tried to saved me
She fell with me in the blues

My mamma told everything she wanted me to know
Everything gone fast
I'd wish everything had gone slow
Now im in heaven right now
In a sudden world went "blow"
I went down there trying to find people for miles
My mamma was up there searching for me
I'll never forgive myself for making her worried about me

Mama tried to saved me
But she went down too
Mamma tried to saved me
She fell with me in the blues

See me im sitting on the porch
Thinking about what I need to do in the military force
I had everything going right
But now everything I lost
Was now was now everything I got
The people I fought
Was the people who forgot about me
But they went to war and got shot the nee
Mama was praying
She said please son come home to me

Mama tried to saved me
But she went down too
Mamma tried to saved me
She fell with me in the blues
I tried all I can
But in you can't do everything you wanna do
So kids sit at home and cry boo hoo
See be thankful you still liven
Cause see every ribbon
It means you can still be fillin my beats

See you can sit back
And enjoy 3-D

Mama tried to saved me
But she went down too
Mamma tried to saved me
She fell with me in the blues
