(No good!)

Brother lashing out at brother

Mother, you don't want to hear it

Father says keep him in the closet

Sister, go and have a baby

Brother take it out on brother

Sister take it out, take it out on sister

Father take it out on lovers

Mother, father, take it out

Brother, you must live your own life

Mother, quit pretending you're a housewife

Father, take a good look in the mirror

Sister, you're not your brother's keeper

Brother take it out on brother

Sister take it out, take it out on sister

Father take it out on lovers

Mother, father, take it out
