[Fat Joe]

Since day one, niggaz died at the Don
cause I was anon, now Terror Squad is a thousand
beyond
Not only strong but we loyal and royally treated
Quadripalegic any squad that wanna squab when I'm
heated
Not even God can believe it, the way we regulate
and levitate, heavyweight niggaz like they was
featherweight
Every day I do the same thang
It's the paid game, to amputate more body parts than
gangrene

[Big Punisher]

Yo this a man's game, it's a shame how niggaz truly
mock me
But who can stop me, from breakin niggaz off like
Fujiyaki?
My crew's probably the only niggaz that really live the
lyrics
Niggaz really fear us, they must of heard we really
killers
We're Philly fillers and 40 guzzlers with millimeters
and army cutters Willie niggaz that laundry dollars
I'm Nostradamus predictin the future, my position is
crucial
with a known friction obsession addiction to shoot ya
BLAM

[Fat Joe]

Hey yo I'm better off dead than givin the feds the
satisfaction
Subtractin my freedom have me missin in action

[Big Punisher]

A fraction of y'all, raw like Colt to the jaw
The rest of y'all, fear war, and couldn't follow out the
protocol

[Fat Joe]

Joe the God is like the angel of death, strangle your
neck
That's why Don Cartagena's the name your respect

[Big Punisher]

I bring the pain to your chest, that'll make you question
your threshold
Flex like you been forced, still "bless you" like a chest
cold
We destined to explode, that's why I stay on flip mode
Your dick rode me long enough Dunn, now you can let
go

Chorus: Big Punisher

Every man in this world has a destiny
Can't no other rapper in this game get the best of me;
unless you just
def dumb and blind you know the pedigree
Better get ready because I'm veddy and there ain't no
gettin rid of me
(repeat 2X)

[Fat Joe]

Uh, uh, uh, yo!
Somebody hold me back, Joey Crack's about to load the
gat
and blow this track to the stars like the zodiac
Hold me back this max n better, out for the ass n
cheddar
But fast cash don't last forever

[Big Punisher]

I asked the felons, if I don't stay wrapped in leathers
and hats with feathers, I got all the ostriches actin
jealous
Track the trailers in chrome black Cateras
Two hundred inch Mickey Thompson's, flown back from
Paris

[Prospect]

Dat dats the illest, these body tracks make a rap
killings
Others is trying to stack billions out in crack buildings
My destiny was to shine, ? to climb
Especially in time, with the recipe in mind
From the jump start, they ain't have to pump hard in
this
I was a part of this, and marvelous stats, it wasn't hard

to miss
And yo, I had to burn cats like arsonists and still
continue
Whose on my menu? A record deal they couldn't lend
you
I had to burn my glock and earn my spot
The time flew by, had to turn my clock
and start with a new resume, not really that bitch
named Des'ree
She ain't really my dream there's a better way -- what?
Prospect'll have to collect dough
Dialin 905 to L-A-X with somethin I was tryin to drive
A life that's trife for what I wore in the fuckin ?
A thug in pain, I swear to my little cousin's grave

Chorus 1X

[Big Punisher]
Every man in this world has a destiny
Can't no other rapper in this game get the best of me;
unless you just
def dumb and blind you know the pedigree
Better get ready because I'm dead in a minute if you're
?
