

## Arch Enemy "Eureka"

Stumbling through  
This complex puzzle that is my life  
Thirsty for knowledge  
But drinking from poisoned fountains  
Flashbacks from my past  
God knows how long I'll last  
Images of you  
Leading my soul astray

These four walls  
Are closing in, suffocating me  
My last wish is to  
Transcend from this dimension of boredom  
Wrap your arms around me  
Like a circle around the sun  
I loved you so  
Why couldn't you love me?

Chorus:  
EUREKA! - I found the secret of life!?  
EUREKA!
