

## Arch Enemy "Heart of Darkness"

You can't kill me. I am living inside you.  
I am a part of your existence  
Twisted thoughts in a twisted mind  
Provoking you

Black is my heart - dark is my soul  
My hatred I can not control  
Evil seed growing stronger  
Your freewill... Dying!

Inside you - heart of darkness  
A part of you - heart of darkness

To deny me, is to deny yourself.  
The illusion is dissolved  
You are no longer in control  
The facade crumbles - the transition is complete

...The transition is complete

I come to you in the night  
I am your dark subconscious  
I keep you awake, knowing  
I am the heart of darkness
