Lyrics: Michael Amott

The more I see - the less I believe
The more I hear - the less I care
This world we've created
Has left me cold
This world is sedated
Dying in it's sleep

I feel nothing

Seen it written on a thousand faces
The simple truth we fear
Seen it happen in a thousand places
Instinct brought us here

The more I see - the less I believe
The more I hear - the less I care
We used to be the chosen ones
Second to none
Look at what we've become
A pathetic excuse for life

I feel nothing

I can feel nothing
Nothing at all
Except for the pain
That hits me again

Again

Lead - Christopher Amott
Lead Harmony - Michael and Christopher Amott
