Crawling in the slame
Dirt infested minds
Always second best, leader of the rats
Spreading their disease

Hiding behind trivial cynicism
Venomous tongues spitting forth lies
So quick to criticize the life of others
Who are you to judge us?

On a higher plain
Our art lives on forever
You are the scum beneath us
Fighting your pathetic battle

Anonymous animosity
Dirt infested minds

You hide behind trivial cynicism
Venomous tongues spitting forth lies
So quick to criticize the life of others
Who are you to judge us?

Laughing right into your face
As we watch your infantile behavior
Love us or hate us - we don't care
We never aimed to please you
