The end is near.
Panic is closing in.
Sick with fear they run

Watch freedom's fall.
What have we become?
Cannot fodder

Reign of terror.
Enslave the nations - devastation!
This is war - pull the trigger.

One nation under their control
Rise - the Tyrants rise!
The enemy inside - the tyrants rise

The end is here - feel it closing in
Blood runs red
Watch in horror - our lives destroyed
We failed

The final holocaust
Enslave the nations - annihilation!
This is war - pull the trigger.
One nation under their control

War, pain, suffering
The price we pay to stay alive
Blood, fire, death
His Glory come, his kingdom rise
This world will burn
