[Instrumental]

Liar! Liar! Conceal the truth!
Silver tongue with a serpent smile.
Bigot! Betrayer! Master of deceit!
With your interest at heart.
When it all came to light,
innocence was lost.
How do you sleep at night?
Lost trust turned to dust!

[Instrumental]

All for one, One for all,
That did not apply to you!
An intricate web of lies,
as the wheels kept on turning.
No more thorns in my flesh.
No more chains hold me down.
I control my destiny.

[Instrumental]

Die!
No more thorns in my flesh.
No more chains hold me down.
I control my...
...destiny.
