Under the surface
We're all the same
Searching for purpose
Running from shame

I'm sorry I'm not all the things that you want
All the things that you thought I would be
I guess I'm not like you
Not something you're used too
Maybe something brand new
You've never seen

I wish I could read your mind
Be one of your kind
I missed you in my time, misunderstood
I wish I could somehow be
All that you want from me
I'm in good company

I got your letter, but tell me who's to blame
And do you feel better, causing me pain?
So much pain

I'm sorry I'm not all the things that you want
All the things that you thought I would be
I guess I'm not like you
Not something you're used too
Maybe something brand new
You've never seen

I wish I could read your mind
Be one of your kind
I missed you in my time-
Misunderstood
I wish I could somehow be
All that you want from me
I'm in good company-
Misunderstood

Misunderstood
I kinda wish that I could

Be understood

I'm sorry I'm not all the things that you want
All the things that you thought I would be
I'm so sorry.
I'm so sorry

I wish I could read your mind
Be one of your kind
I missed you in my time
Misunderstood
I wish I could somehow be
All that you want from me
I'm in good company
Misunderstood.
Misunderstood
I wish that I could
Be understood

Under the surface
We're all the same
