I'm gonna lay it to you on the line
Yeah, if you wanna spend some quality time
I'm gonna love you and please you
And never gonna leave you, no, no

I wanna love you night and day
And in every single way
I'm gonna love you and kiss you
I'll never gonna miss you no more

Oo-oo-oooh
Watch me smooth up to you as I'm playing my ace and
hearts
Oo-oo-oooh
But you're cool, you're no fool, you've got nothing to
lose in the dark
You gotta stop your wasting time
Oh don't you split, I'll change your mind

Ohh, thank you baby
Thank you baby
Thank you baby
Thank you for saving my life

And in my old and special ways
I'm begging to you, come on and stay
And if you take me and make me
And never would forsake me, no, no

Oo-oo-oooh
Watch me smooth up to you as I'm playing my ace and
hearts
Oo-oo-oooh
But you're cool, you're no fool, you've got nothing to
lose in the dark
You gotta stop your wasting time
Oh don't you split, I'll change your mind

Ohh, thank you baby
Thank you baby
Thank you baby

And after all is said and done
It's just another case of hit and run
You went and flip me and slip me
And barely nearly trip me, oh yeahhhh

Light a cigarette,
Trying to forget you
Light a cigarette,
Trying so hard to claim
Light a cigarette,
I never really met you
Light a cigarette,
The blame's just the same

And after all is said and done
It's just another case of hit and run
You went and flip me and slip me
And barely nearly trip me, oh yeahhhh

Thank you baby
Thank you baby
