Her dance needs no body
No body at all
She is both darkness and light
Just a shadow on the wall

He's a wink of a black cat's eye
At the end of an unlit hall
Both the lady and her lover
Both the child and her doll

Time, has no body at all
Over and over and over
Surrender, surrender, surrender
Rage gently, gently

She's a warm breath on a window
Tangled hummingbirds fall
The earth 'lone is her footprint
All the wind is her shawl

Her dance needs no body
No body at all
