The Original Lyrics File

Walking - for your love (x4)

I'm only going where my eyes are going

I'm only going where my toes are pointed

I just bought me this new pair of big shoes

I'm only going if I can walk there with you

Shining - for your love (x4)

I'm afraid to open my eyes

I'm even afraid to look at you

Right here - I'm gonna open my eyes

I'm gonna move with you

Dissapearing - for your love (x4)

We're only going in this closet here

I'm only going if the doorknob turns

I'm only going if the light goes on

I'm only going if I can boogie with you
