Intoxicated, smoke cigaretts, drop ass in your gases  
feel the utencil, knife is dull like a pencil  
And what?  
When a nigga place pussy get fucked  
Without a kiss or a hug, like contaminated blood,  
Transfused from a junkie  
With the hair of Jones, I reconstruct the bones  
Of all hip hop clones

With low self esteem, cause it's easier to get the pussy  
I'm performing vinyl liposuctions

Ras Kass:

I'm like Dougie Howser MD with a desert eagle  
Criminal Genius  
operation, separating them siamese twins hangin'  
beneath them niggas penis  
Take it to your face like a skin graph  
rappers, I specialize in talent transplants (word?)  
You want (phat) fat lips nurse get to college  
And ten tons of stomach pumps from all the cum you  
and Richard Gere be  
swallowin'  
Now followin' ask Vanna to buy you flowers  
so you can C (see) I A (aye) E-Swift O (Oh) U (you) know  
Y (why)  
We remain uncontested to the contender, we can  
Million Man March all the way to December  
January, February 28th

Saafir:

I, never, wash my hands  
The only rubber gloves I wear is on my dick  
But I'll split you quick  
Like Jackie Chan, the way I switch my wristband  
I make ya sick, but I'm a doctor, don't trip  
Hopefully, in surgery, I won't slip  
on a tile that file and twist ya lips  
Like Collin Powell  
Descriptions I'm overwrite  
For the ones that over bitin' on dental records  
bitin', to God, send your blessings  
I'll put your mask on, fast like Romidon minks  
and bitches, I have, ? half blind in the paper, they  
named me  
A Large Professor, a Mad Scientist, with a long line of  
clients  
BITCH! GET OUT OF MY OFFICE  
You don't have an appointment or an application  
For me to attack your face in my practice  
Never lackin' when I'm insurting these plastic patches  
Seems like you need plastic surgery
