Cry cry darling, that's what I do  
If you'd leave me with the blues  
Cry cry darling, that's what I do  
If it's you that I should lose

For me there'd be no moonlight  
If ever we should part  
Cry cry darling, that's what I do  
'Cause you're the one that's in my heart

Cry cry darling, my eyes will cry  
And never dry if you should go  
Cry cry darling, when shadows creep  
I'll just weep all night I know

For me there'd be no moonlight  
If ever we should part  
Cry cry darling, that's what I do  
'Cause you're the one that's in my heart
