Dash 7 in the air,
Jets hum
Dropped to the sun alone,

I wish that I was still there,

Props not a jet, alone,
Where the sun doesn't come down
Because I've found the way those engines sound,
Dash 7 pointed down
Will make it kiss the ground,
When you touch down

Doesn't make a sound

The captain's announcement,
Will make it kiss the ground
I found the way those engines sound,
Because I've found the way those engines sound,
Will make it kiss the ground,
When you touch down
