Wilburn Brothers
"Goin' And Comin'"

You've got me goin' and comin' back and forth you got
me matters
I'm so in love with you
You snap your fingers and here I come you say go and
away I run
You've got me goin' and a comin' to

I've got no time to turn about sit right down and think
this out
Got my poor old heart up in the air
First you treat me sweet and nice then you tell me it's
no dice
You keep me runnun' here and there
You've got me goin' and comin'...
[steel]
I guess all this is for the best when my love has stood
the test
You want me the way that I want you
I need your love so after all I'll be here each time you
call
I just don't know what else to do
You've got me goin' and comin'...
