"Graveyard Shift"

Visit "[Graveyard Shift](#)" on MotoLyrics.com

Graveyard shift works all night long it works from
sunset till early dawn
The work is hard but your back is strong graveyard
shift works all night long

While everybody else is a snoozin' away I got a night
job and I sleep in the day
It wouldn't be so bad if they paid me good
But they put me at the bottom of the brotherhood
Graveyard shift works...

Got a newly wed wife that I never get to see
By the time I get home it's time for her to be
Gettin' to work down at the A and P at the rake we're
goin' we'll never be three
Graveyard shift works...

I'm a God fearin' man just as plain as I can be
A black cup of coffee is good enough for me
And it takes about a gallon to give me the lift
That I need to get me through on the graveyard shift
Graveyard shift works...
