I know you don't love me anymore  
On our love you gently closed the door  
Someone else has won your heart  
Now you plan a brand new start  
I know you don't love me anymore

You never even gave our love a chance  
Now you say you found a new romance  
I'll always love you that I know it hurts  
So much to see you go  
I know you don't love me anymore

It wasn't meant for me to judge you right or wrong  
So now I hope you've really found the one  
Who will give you love that's true just the way I wanted  
to  
I know you don't love me anymore  
I know you don't love me anymore
