There's a whole lot of money that you gave me  
I'd gladly empty my pockets right now  
It's just that simple

You'd parlay all that by triple  
Those days I'd gladly walk so long for you,  
After some time I felt like a cripple  
Although it seemed I crawled most of the way  
And the time you remember we were by the lake  
It's just that simple  
Last week I was thinking about traveling by land,

It wasn't even like we made a ripple  
It's just that simple  
In my head, the time didn't make a  
ripple  
It's just that simple
