Everybody sure is busy puttin' me down they whisper  
bout me drinkin' all the time  
And talk is spreadin' fast that I'm the drunk of the town  
But they don't understand this heart of mine  
Someday I'll sober up just wait and see  
When things were back the way they oughta be  
Someday I'll sober up just wait and see the day my  
baby comes back home to me  
[ piano - steel ]  
I wasn't always on the bottle then baby left and now I  
got no one to call my own  
If anybody thinks I'm funny go on and laugh it don't  
matter none since baby's gone  
Someday I'll sober up...
