Black wind blowing in the cotton field, honey  
There's a black wind blowing in the cotton field, baby  
There's a black wind blowing in the cotton field  
And oh how funny it makes me feel  
Baby, sweet thing, darling

There's a long black cloud hanging in the sky, honey  
There's a long black cloud hanging in the sky, baby  
There's a long black cloud hanging in the sky  
Weather's gonna break and hells gonna fly  
Baby, sweet thing, darling

Cotton's pretty thin yonder on the hill, honey  
Cotton's pretty thin yonder on the hill, baby  
Cotton's pretty thin yonder on the hill

It won't clear a greenback dollar bill  
Baby, sweet thing, darling  
Work shade and back to the buzzard wing, honey  
Work shade and back to the buzzard wing, baby  
Work shade and back to the buzzard wing  
Clouds are gonna bust and cry down rain  
Baby, sweet thing, darling

There's a black wind blowing in the cotton field, honey  
There's a black wind blowing in the cotton field, baby  
There's a black wind blowing in the cotton field  
And oh how funny it makes me feel  
Baby, sweet thing, darling
