You always wanted more time
To do what you always wanted to do
Now you got it

And I, I must be high
To say goodbye
Bye, bye, bye

You never said you needed this
And you're pissed that you missed the very last kiss
From my lips

And I, I must be high
To say goodbye
Bye, bye, bye

And you never looked in my eyes
Long enough to find any piece of mind
But now you got it

And I, I must be high
To let you say goodbye
I must be high

Bye, bye, bye
Bye, bye, bye
