There's no one to guide you
Anyone can feel like this
There's no one beside you
I put a kiss upon your lips
Our love might let you down
But I want you to remember this

No one outshines you
Anyone could feel like this
There's no one inside you
You're the one that I still miss
Our love could let you down
Remember that you told me this

When the fog has twisted
And all the sands have drifted
There is one thing to remember
You're not gone

If you're feeling older
The weight will lift from your shoulders
There is one thing to remember
I'm not gone

I'm gonna find you
Put a kiss upon your lips
No one outshines you
And I want you to remember this
Love won't let you down
If you can remember this

When the fog has twisted
And all the sands have lifted
There'll be one thing to remember
I'm not gone

When you're getting older
The weight will lift from your shoulders
There'll be one thing to remember
You're not gone
I won't ever let you down
I won't ever let you down

I won't ever let you down

I'm gonna find you
I want you wrapped around my hips
Love will let you down
There's one thing to remember

When the fog is twisted
And all the sands have drifted
There is one thing to remember
You're not gone

When you're getting older
And the weight will lift from your shoulders
There's one thing to remember
I'm not gone

I won't ever let you down
I won't ever let you down
I won't ever let you down
I won't ever let you down
I promise

I won't ever let you down
I won't ever let you down
I promise

I won't ever let you down
I promise

I won't ever let you down
