BUILDING A SNOWMAN

Unforgettable snowman you are...

Unforgettable snowman you are...

Your carrot nose so cute

It's sad that you are mute But one night you came alive

And woke me from my sleep

The snow on you gleamed in my eyes

As you interrupted me counting sheep

Chorus:

Unforgettable snowman you are...

Unforgettable snowman you are...

Why did you go away?

All the work I put in

Isn't it a sin

To have you melt away

Unforgettable snowman you are...

Unforgettable snowman you are...

Oh, was it just a dream?

or so it seems

That you didn't really come to life?

Unforgettable snowman you are...

Unforgettable snowman you are...

Why does it have to be

That you are no longer here with me

Why did you have to melt a away

And forever ruin my days

Now that spring is here

I'm left with a pile of hay

Chorus 2x

Chorus until fade
