

Rapture, The "This Is Where I Am"

Visit "[This Is Where I Am](#)" on MotoLyrics.com

My mistake was letting you know

Sharing all that I had

With someone I never knew

In the end

I'm hearing voices

Of people thought long gone

Once again I fear

I'm losing control

In the end

Everything's inside

Every disease I hide

Bleeding and in pain

Cold and tiredly giving in

Come and burn with me

Slit open my world of pain

Sometimes at winters hour I feel quite dead

Just like in the end
