Bought off and sold
Make use of your enemies
Line em up single file and gouge out all their eyes
All fingers point in the wrong direction
Set up your example of the ones that we despise
I'm not grounded I'm not reactive
So uptight it's so unattractive
Forced out of use, forgotten for a long time
Superficial motherfucker wasting sign of want from off
All hail the black market
Getting what we want when we want it so bad
All fingers point, all fingers pry
Stick out your thumb and watch them drive on by
I'm not grounded I'm not reactive
So uptight it's so unattractive
Forced out of use, forgotten for a long time
Superficial motherfucker wasting
