Crawl off the faces  
With my nonsense  
And clog your ears with ashes  
And boiled the sound to dry  
It's not your fault you're not my hero  
It's not your fault I can't make it clear enough  
It's not your fault at all  
Do do do  
Break off my jaw  
Scrape off my teeth  
Pull off my leg  
Drop off my load  
For a quarter, you can give him a quarter  
You can go into town with a reason to have an erection  
I like your tatoo depiction  
South Carolina  
Because I've been dying  
And I've been trying  
For ways to get through  
Days to get through  
And I chew my grass  
Just my grass  
My grass, my grass, my grass, my...  
Do do do  
Do do do  
South Carolina  
Carolina  
Carolina  
South Carolina  
Because I've been searching for you  
I've been praying for you  
I've been saying for you  
I've been waiting for you  
South Carolina  
Do do do  
Do do do
